

XY Graphing in Excel

Step 1: Enter your data into two columns. Include the text headers at the top of each.

	A	B	C
1	x stuff	y stuff	
2	34	23	
3	12	13	
4	14	15	
5	43	22	
6	21	20	
7	33	23	
8	24	24	
9	34	32	
10	32	44	
11	32	22	
12			

Step 2: Select the two columns by clicking the upper left cell and dragging down to the last cell on the right.

	A	B	C
1	x stuff	y stuff	
2	34	23	
3	12	13	
4	14	15	
5	43	22	
6	21	20	
7	33	23	
8	24	24	
9	34	32	
10	32	44	
11	32	22	
12			

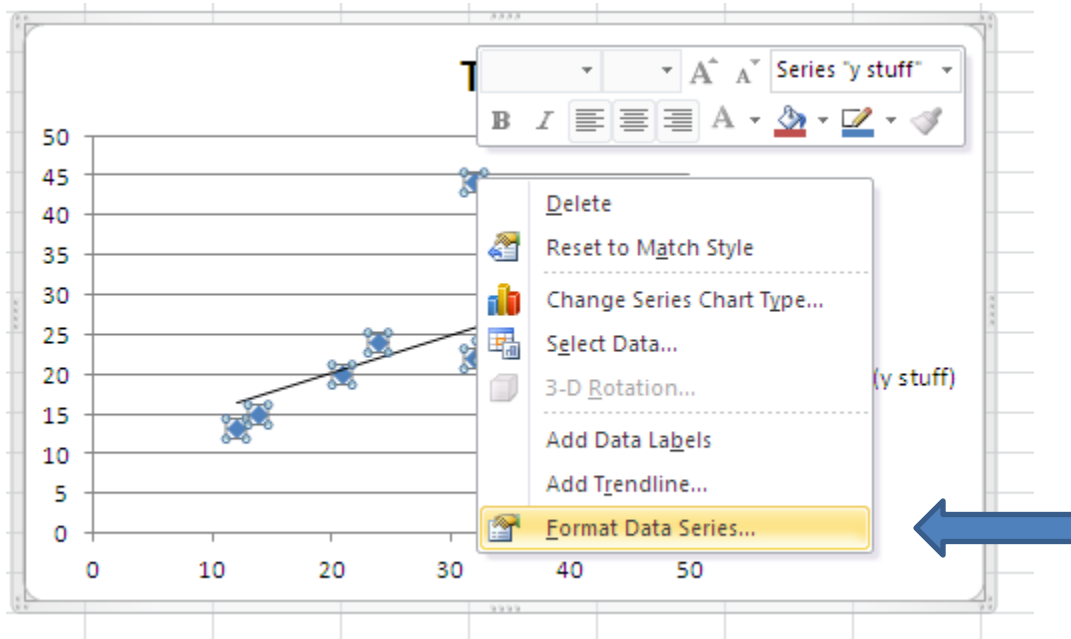

Step 3: Click **Insert** and choose your chart type.

Step 4: Your chart will appear next to your data. Select the chart by clicking on the edge and notice the **Chart Tools Tab** at the top of the screen. Click on your title to change it.

Step 7: To change the look of your data points, right click on one and select **Format Data Series**.

Click **Marker Options** and select the **Built-in** button.

The 'Format Data Series' task pane is shown. The 'Marker Options' tab is selected. The 'Marker Type' section has three radio buttons: 'Automatic', 'None', and 'Built-in'. The 'Built-in' option is selected, indicated by a blue arrow. Below the radio buttons are two controls: 'Type' with a diamond icon and a dropdown arrow, and 'Size' with a text box containing '7' and a vertical spinner.
